

1) En el top donde dice The Method, Service, about, etc, cambia **ABOUT POR WHO IS YEZ**

2) Luego dice THE NEXT MOVE METHOD como título (NO VA ALLI) te lo explico por video para que entiendas a detalle.

3) **HERO — FIRST SCREEN**

KEEP:

THE NEXT MOVE METHOD™

REPLACE CURRENT HEADLINE:

Remove:

Homeownership, designed for what comes next.

Replace with:

Homeownership, designed with purpose.

We specifically want to eliminate “for what comes next” because it feels too similar to traditional Realtor / life-transition messaging.

SUBHEADLINE

Use:

Strategic homeownership for the next generation of professionals.

SUPPORTING COPY

Replace/add the paragraph underneath with:

I help professionals turn buying or selling a home into an intentional decision, built around their financial picture, lifestyle, career, and the life they’re building.

Important: do NOT repeat “strategy/strategic” again in this paragraph because “Strategic Homeownership” already appears directly above.

PRIMARY CTA

Design My Next Move

SECONDARY CTA

Explore The Method

Secondary CTA should scroll directly to The Next Move Method section.

4. BRAND POSITIONING SECTION

Immediately after Hero

Keep the general visual design but update the copy. Use:

A better way to approach ownership.

Technology that makes decisions clearer.

Human guidance when the stakes are high.

An experience designed around where you're going, not just what you're buying.

Then emphasize this statement:

****The next generation doesn't need another Realtor.**

It needs a better way to think about ownership.**

Then underneath:

This is Strategic Homeownership.

Ownership, Designed.

Important:

"Ownership, Designed." should feel like a brand signature, not another paragraph.

5. BUY / SELL / RELOCATE SECTION

If the current page only shows:

BUY
SELL

add a third category:

RELOCATE

This is important because relocation is one of the core client segments of the brand.

BUY

Headline:

Buy with clarity.

Supporting copy:

Understand the numbers, the market, and the decision before choosing the property.

CTA:

Explore Buying

SELL

Headline:

Sell with intention.

Supporting copy:

Position your property and your next move around the outcome you're actually trying to create.

CTA:

Explore Selling

RELOCATE

Headline:

Relocating to Texas?

Supporting copy:

A move isn't just about finding a house. It's about understanding where your life works best.

CTA:

Plan My Move

This can currently link to the same intake form if there is not yet a dedicated relocation page.

6. ABOUT YEZ - Replace fro WHO IS YEZ

Keep the existing design/photo treatment.

Replace the About copy with:

Before real estate, there was engineering.

The instinct to break a complex problem into its real parts, understand how everything connects, and build something that works.

That instinct never left. It simply found a new application: homeownership.

Yez has been connected to the real estate industry since 2014 and became a licensed Texas Realtor in 2024. Through those years, one thing became increasingly clear: the hardest part of buying a home is rarely finding the house.

It's understanding the decision behind it.

Today, Yez combines real estate strategy, technology, market knowledge, and a deeply personal approach to help clients make ownership decisions around the life they're actually building.

Bilingual and based in Austin, she works especially closely with professionals navigating career growth, relocation, financial decisions, and major life transitions.

At the end, keep/add:

Engineer by training · Entrepreneur by nature · Immigrant by experience · Pilot by soul · Realtor by purpose

Important developer note:

Make this last line visually distinct but understated. It should feel editorial/premium, not like a list of credentials

7. THE NEXT MOVE METHOD™ — INTRO SECTION

Keep the name:

The Next Move Method™

Keep the four stages:

Decode → Design → Execute → Advance

The purpose of this section should be very clear:

This is not simply the buying process.

This is the methodology Yez uses to help a client make and execute the right ownership decision.

8. THE NEXT MOVE METHOD — 01 DECODE

Keep:

01 — DECODE

Keep the headline:

We decode the story your finances are already telling.

Replace supporting text with:

Before looking at properties, we understand your financial position, timeline, lifestyle, and future objectives.

Then show these four categories:

Financial Position

Timing

Lifestyle

Future Objectives

IMPORTANT VISUAL CHANGE:

REMOVE ALL 0% values currently appearing beside these categories.

Do not show:

0% Financial Position

0% Timing Readiness

0% etc.

There should be NO percentages in Decode.

9. THE NEXT MOVE METHOD — 02 DESIGN

02 — DESIGN

Keep:

A strategy built around your life, never a generic search.

Supporting copy:

We turn what we learned into your Personalized Ownership Strategy, defining your budget, scenarios, priorities, lifestyle, and next steps.

Show:

**Budget Alignment
Scenario Planning
Search Strategy
Lifestyle Fit**

There should be NO percentages in Design.

10. THE NEXT MOVE METHOD — 03 EXECUTE

03 — EXECUTE

Keep:

Every step, represented, nothing left to chance.

Supporting copy:

From property analysis and offer preparation to inspections, negotiation, financing coordination, and closing, we manage the process with intention.

Show:

**Property Analysis
Offer Strategy
Negotiation
Timeline Control
Risk Management**

REMOVE any artificial scores or percentages

We do not want the Method to look like a scoring calculator unless we eventually develop an actual proprietary scoring system.

11. THE NEXT MOVE METHOD — 04 ADVANCE

04 — ADVANCE

Keep:

The relationship keeps moving long after closing day.

Replace/add supporting copy:

Ownership doesn't stop at closing. We continue the plan around equity, market changes, future moves, investment opportunities, and the next chapter of your real estate strategy.

Show:

Equity
Network
Market Position
Portfolio
Future Moves

This section is important because it differentiates Yez from a Realtor whose relationship ends at closing.

12. HUMAN + TECHNOLOGY SECTION

Keep this concept.

TECHNOLOGY

Replace the list with:

Organizes information
Compares scenarios
Simplifies complex decisions
Visualizes the numbers
Keeps the process moving

REMOVE:

Automates follow-up

That is an internal operational benefit and does not create perceived value for the client.

HUMAN

Use:

Listens

Interprets

Advises

Negotiates

Protects

Represents

Understands context

Keep the closing line:

High-tech where it simplifies. Deeply human where it matters.

Do not change this sentence.

13. WHY YEZ SECTION

Update the points to:

Engineering mindset + technology + human guidance + Austin market knowledge.

Homeownership decisions built around your financial picture

Personalized representation, not a transaction queue

Technology built for clearer decisions

Bilingual and culturally aware

Deep knowledge of Austin and Central Texas

Important:

REMOVE/replace:

Financial strategy you can actually understand

14. SOCIAL PROOF / REVIEWS

REMOVE completely:

Client stories are on their way.

REMOVE:

In the meantime, read verified reviews below.

Anything saying something is “coming soon” makes the website feel unfinished.

Replace section introduction with:

What clients say

Real experiences. Real moves. Real next chapters.

Then show actual reviews.

Preferably show at least 3 reviews directly on the website instead of only external buttons.

The reviews should ideally cover different types of clients:

Buyer
Relocation
New construction / negotiation

Then buttons can remain:

Google Reviews

[Realtor.com](#) Reviews

15. FINAL CTA SECTION

Keep the existing statement:

****The transaction ends.**

The relationship keeps moving.**

This is strong and should remain.

Underneath add:

Ready to design your next move?

Supporting copy:

Whether you're buying, selling, relocating, or simply trying to understand what's possible, start with clarity.

Primary CTA:

Design My Next Move

Secondary option:

Prefer to talk directly?

WhatsApp Yez →

The WhatsApp button should open a direct conversation.

16. REMOVE ALL “COMING SOON” LANGUAGE

Search the entire website and remove any instance of:

Coming soon

Call booking is on its way

Client stories are on their way

Photo placeholder

or any other development/test language.

Nothing on the published website should indicate that the website is unfinished.

If a feature is not ready, hide it completely rather than displaying “coming soon.”

17. BUTTON CONSISTENCY

Primary CTA across the entire website:

Design My Next Move

Use this consistently.

Avoid changing between:

Book a Call
Get Started
Let's Talk
Contact Me
Start Here
Schedule Now

unless it is a specific secondary action.

Primary brand conversion = **Design My Next Move**

Secondary actions can include:

Explore The Method

WhatsApp Yez

Explore Buying

Explore Selling

Plan My Move

18. TYPOGRAPHY / VISUAL HIERARCHY

Do not make every phrase large.

The website should continue to feel editorial, intentional, minimal and premium.

Hierarchy:

Large eyebrow text:
THE NEXT MOVE METHOD™

Large H1:
Homeownership, designed with purpose.

Supporting statement:
Strategic homeownership for the next generation of professionals.

Paragraph:
Supporting explanation.

CTA.

Maintain generous whitespace.

Avoid adding icons everywhere.

Avoid stock-house imagery.

Avoid traditional Realtor clichés visually such as:

keys
rooftops
handshakes
“Sold” signs

generic happy families
luxury-house stock photos

The brand should feel closer to a modern strategy/technology/lifestyle brand than a traditional Realtor website.

20. SEO — PAGE TITLE

Change/confirm Homepage SEO Title:

Yez The Realtor | Austin Realtor & Strategic Homeownership

21. H1 / H2 STRUCTURE

Only ONE H1 on Homepage:

Examples:

The Next Move Method™

Homeownership, designed with purpose.

Main sections should use H2.

Examples:

Meet Yez

A Better Way to Approach Ownership

Human + Technology

What Clients Say

Ready to Design Your Next Move?

Avoid using multiple H1 tags solely for styling.
